Airfield Changes Effective July 1, 2026

Effective July 1, 2026

The following changes will take effect in the Terminal 1 area on July 1, 2026:

- Gates B1, B2, and B3 reopen
- Gates C1 and C3 close
- New service road routing established
- Taxi route modifications implemented
- Gate C7 lead-in and pushback configuration revised

The graphic depicts the overall area affected by the July 1, 2026 airfield changes. Refer to the accompanying AOA Alerts for detailed information regarding specific service road, gate, and taxi route modifications.

IMPORTANT NOTE:

Drivers operating near Gate C7 should use extreme caution and remain clear of the adjacent construction area, which will be delineated by concrete barriers. The work area contains extremely deep open excavations and other construction hazards. Unauthorized entry into the construction area is strictly prohibited.

AOA ALERT

Airfield Changes Effective July 1, 2026

Effective July 1, 2026

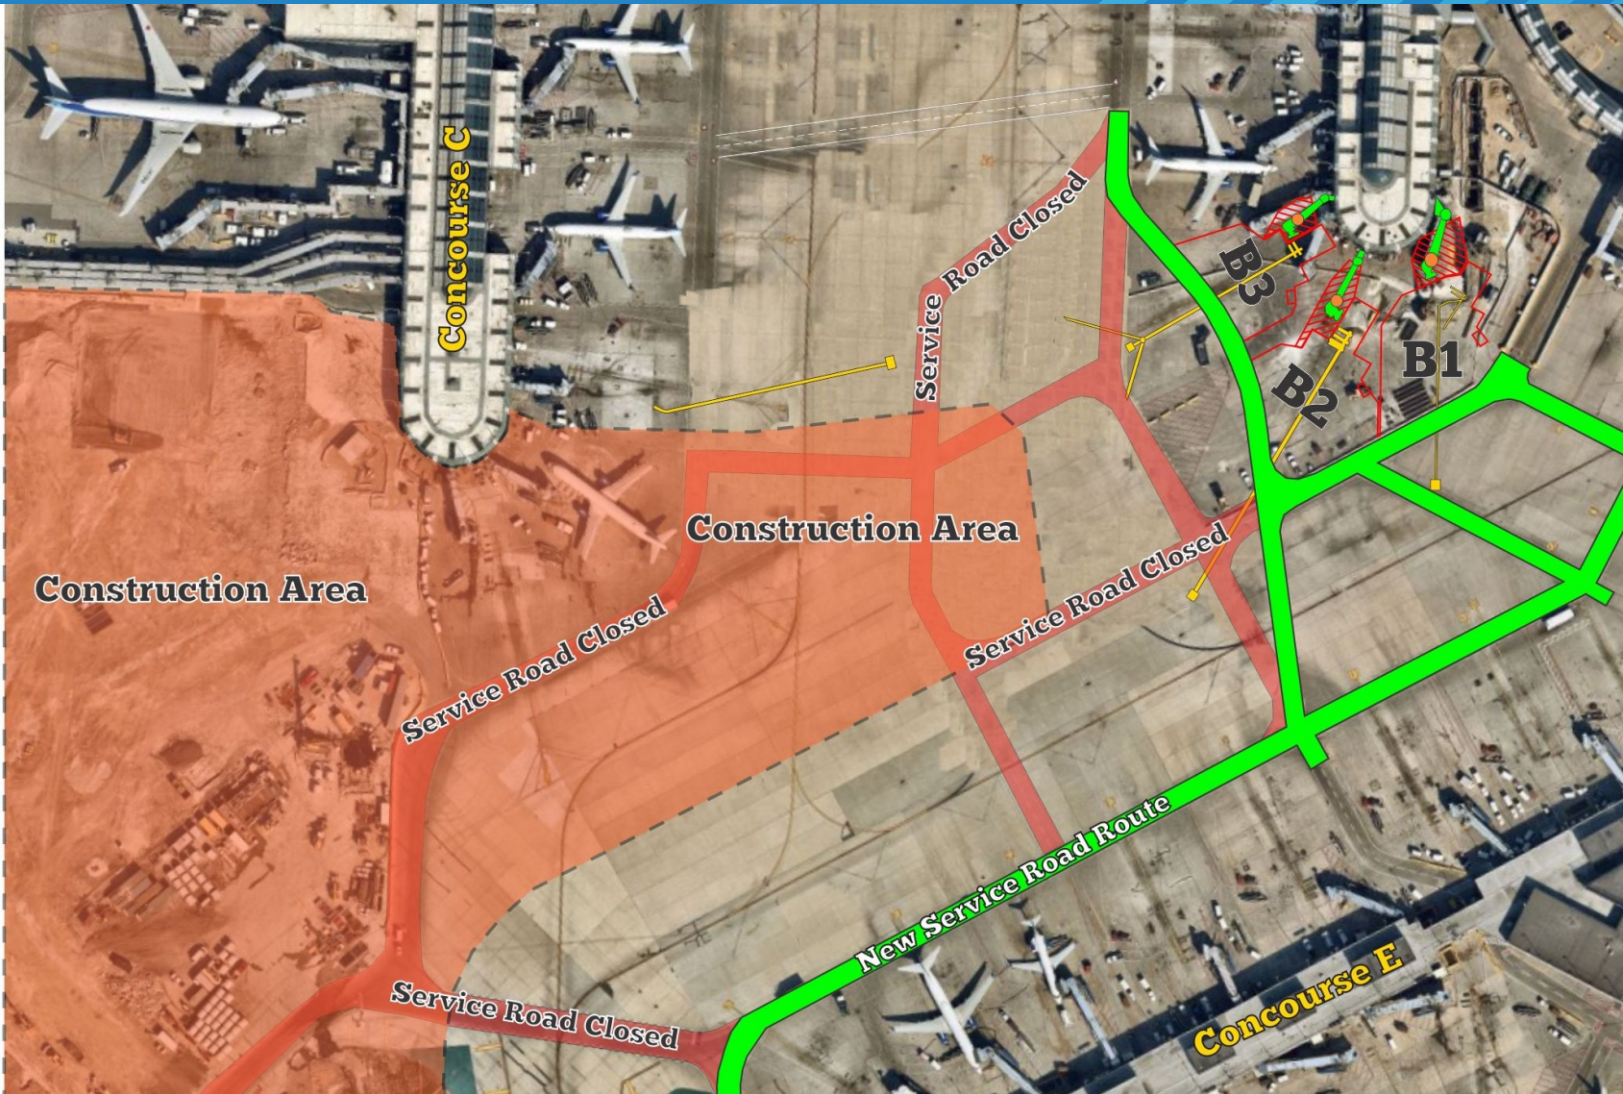

A new airfield service road route will be established between the B and E Concourses effective July 1, 2026. Existing service road and zipper markings within the project area will be removed and replaced with revised vehicle routing.

- The existing service road route shown in **RED** will be removed
- A new service road route shown in **GREEN** will become the designated vehicle route through the area.

Airfield drivers should familiarize themselves with the new route prior to operating in the area and follow all posted signs, pavement markings, barricades, and personnel directions.

Drivers should exercise caution when transitioning to the new route and remain alert for aircraft, vehicles, and construction activities.

As construction progresses, additional AOA Alerts may be issued to communicate future operational impacts and airfield changes. Airport users should review all AOA Alerts and operational notices for the most current information.

AOA ALERT

Gates and Taxilane Changes

Effective July 1, 2026

Several gate and aircraft routing changes will be implemented between the C and B concourses effective July 1, 2026.

- Gates B1, B2, and B3 will reopen for aircraft operations.
 - Gate B1 is restricted to E175 aircraft only,
 - Gate B2 to B737/A320 family and smaller aircraft, and
 - Gate B3 to E175 aircraft only.
- Gates C1 and C3 will close to accommodate construction activities.
- Gate C7 will be restricted to E175 aircraft or smaller and will operate with revised lead-in and pushback procedures.
- The new Taxilane is restricted to B767-300 and smaller aircraft.
